**Trainings for Non-Certified Commercial Applicators**

Below is a link to EPA accepted **handler training** videos that may be used to train non-certified commercial applicators working as part of a crew and applying Restricted Use Pesticides (RUP's). Please note per Pes 403.04, provided below, a record of trainings must be maintained for two (2) years.

PART Pes 403 ONGOING REQUIREMENTS

Pes 403.01 Supervisory Level Certificate of Registration. At least one employee at the supervisory or managerial level of each business entity applying pesticides commercially shall hold a supervisory level certificate of registration. If more than one supervisory office or district exists in the state for any one business entity, then at least one member of each such district shall hold a supervisory level certificate of registration.

Pes 403.02 Certification of Crew Members. At least one member of each crew shall be registered at either the operational or supervisory level and be present whenever and wherever a commercial application of pesticides is made in this state.

Pes 403.03 Periodic Inspections. By accepting registration certificates, licenses, permits, certification and other documents, the bearer shall agree to and understand that periodic inspections of pesticide application for enforcement purposes shall be made pursuant to RSA 430:42 and RSA 430:43.

**Pes 403.04 Non-Certified Applicators. Prior to applying restricted use pesticides, all non-certified applicators shall be trained in accordance with Pes 1103.02 with records of said training maintained pursuant to Pes 1103.05.**

**Pes 1103.02 Handler Employer Responsibilities. Each handler employer shall ensure that each handler, prior to performing any handling tasks, has been trained in accordance with the provisions of the "Worker Protection Standard," and the requirements of Pes 1100.**
