

SECTION 7: Greenhouse Crop Production §205.200, §205.201(a)(5), §205.202(c)

- ❖ Complete this page if you produce organic seedlings or crops in a greenhouse, a permanent enclosed structure that allows for a controlled environment used to grow organic crops, annual seedlings or planting stock.
- ❖ High tunnel production is covered in the following section.

1. Indicate the scope of your greenhouse production:

- ☐ My operation is exclusively greenhouse production/sales
- ☐ My greenhouse production is for my on-farm transplants
- ☐ My greenhouse production is also for transplant sales
- ☐ Greenhouse production is part of my farming operation and is located on certified organic land
- ☐ I have indicated my greenhouse location(s) and ID(s) on my farm map(s)

Do you grow crops in containers/raised beds? ☐ Yes ☐ No

If yes, list the crop types produced using containers: ☐ Vegetable seedlings ☐ Herbs ☐ Perennials
☐ Microgreens ☐ Edible sprouts ☐ Flowers

How are you maintaining your raised beds?

Do you grow crops in the ground? ☐ Yes ☐ No

If yes, list the crops that you will be growing in your greenhouse:

2. Describe your greenhouse type(s); include ID(s) and size(s):
