

NHDAMF Materials Use Table §205.103, §205.203, 205.238, 205.600-606

Producers are responsible for using only products that meet NOP standards. During your inspection, be prepared to provide product labels, ingredient lists, invoices and other relevant documentation.

List all materials (inputs) you use or plan to use: defoamers, filtering aides, cleaners, sanitizers, fertilizers, pesticides or any other materials applied to the sugar bush or used in the production of maple syrup or maple products. Using products or inputs not listed on your materials list puts your certification at risk. Completely fill out each column or your OSP will be considered incomplete.

“OMRI” product verification shall only be used when the specific brand name product is on the current OMRI list. “OMRI” is not to be indicated for a generic category.

FARM NAME: _____

SYRUP PRODUCTION:

Intended Purpose of Material: defoamer, filtering aide, etc.	Complete Product Name	Company Name/Manufacturer as listed on product	Indicate Verification of Use: National List, OMRI, WSDA, PCO, NHDAMF, etc.	Initial each product to indicate you understand any <u>Restrictions</u> regarding use	Plan to Use or Have On-Hand	For NHDAMF Review Only
