

New Hampshire Metrology Laboratory

Mass Submission Form

(For all mass orders, or to get a quote)

Purchase Order #: _____

Date: _____

Company: _____

Yes / No

Is this equipment to be used by a Registered NH Weights & Measures Service Technician to certify scales in NH?

Have these weights been exposed to hazardous substances?

If you would like to use the same calibration parameters from a previous calibration (and not have to complete the rest of this form), submit a copy of the prior calibration report **or**,

Reference NH State Test #: _____

Calibration Level (Mark the desired boxes)

NVLAP Accredited calibration / report (ISO 17025; International acceptance)

NIST Traceable calibration / report (National acceptance)

Echelon I Extra Fine Accuracy (Weights used at the highest level of lab calibrations such as metrology labs, etc.)

Echelon II Fine Accuracy (Weights used for lab scales, jewelry/precious metal scales, etc.)

Echelon III Medium Accuracy (Weights used for retail scales in grocery stores, laundry mats, platform scales, etc.)

Accuracy Class (Indicate the weight class next to the corresponding standard)

ASTM

OIML

NIST

Other _____

I don't require tolerances

Due Date: _____

Calibration Cycle: _____

*Manufacturer: _____

Serial Number/ID: _____

Weights (#, range): _____

*Material: _____

*Density: _____

(* For echelon I & II calibrations only.)
