

SECTION 6: Seeds §205.204

1. Seeds; Check all that you use or plan to use in seeding hay fields, forages, grain or pastures:

- ☐ Certified organic seed, purchased
- ☐ Non-organic, untreated seed, purchased
- ☐ Non-organic, pelletized seed, purchased (requires documentation for compliance)

2. If non-organic seed is used, is documentation available to verify that;

- a) It is not a “genetically engineered” variety ☐ Yes ☐ No
- b) An organic equivalent variety is not available ☐ Yes ☐ No
- c) It is untreated or treated with an allowed substance ☐ Yes ☐ No

3. Seed Treatments and Inoculants ☐ Not Applicable; none used
