

New Hampshire Department of Agriculture, Markets & Food Manure Directory Sign-up Questionnaire

NHDAMF's Division of Regulatory Services is updating the Manure Exchange which is a directory of farmers and suitable landowners who are able to receive and/or pick-up manure from horse and livestock operations. The directory will list operations which can accept and utilize manure as a soil amendment, compost component, or in the manufacture of loam.

The directory will be distributed to horse and livestock owners who need to remove manure generated on their farm, particularly those who do not have adequate storage facilities or adequate cropland to utilize manure nutrients. It will also be made available on www.agriculture.nh.gov. To request inclusion in the directory, please fill out the following application.

GENERAL INFORMATION:		
NAME:		
NAME OF FARM/BUSINESS:		
ADDRESS:		
CITY:	STATE:	ZIP CODE:
PHONE:	ALT PHONE (IF APPLICABLE):	EMAIL:
LOCATION ADDRESS OF COLLECTION SITE IF DIFFERENT FROM ABOVE:
