CHAPTER Pes 900 RECORD KEEPING AND REPORTING

PART Pes 901 REPORTING AND RECORD KEEPING OF PESTICIDE USE

Pes 901.02 Daily Record Keeping by Registrants or Permittees.

(a) All applications of pesticides by registrants or permittees shall be recorded simply and accurately with records being maintained at the firm, branch office, or subsidiary for pesticide applications performed by personnel working from such firm, branch office or subsidiary as registered under Pes 307.

(b) Registrants and permittees shall keep and maintain these records for a period of at least 2 years whether or not there is a renewal of certification.

(c) The following facts regarding each pesticide application shall be included in records maintained by both commercial and private applicators:

- (1) Crop treated, site of treatment, address, and town;
- (2) Pesticide and formulation employed;
- (3) Dosage applied;
- (4) Method of application;
- (5) Date or dates of application;
- (6) Target organisms; and
- (7) The registrants or permittees of the division who participated.

(d) The records specified in (a) above shall be made available to the division to verify compliance with this section.
