The New Hampshire Department of Agriculture, Markets and Food offers tick identification to New Hampshire residents. Ticks can be vectors for Lyme and other diseases. **The Department of Agriculture does not test ticks for Lyme or any other disease.**

Ticks should be dead before they are mailed in a crush-proof container, with this completed form, to: The New Hampshire Department of Agriculture, Markets & Food, Division of Plant Industry, State Lab Bldg., 29 Hazen Drive, Concord, NH 03301. If the tick is alive when removed, please place in the freezer overnight before mailing.
